

Clear Cache in Internet Explorer – Version 6 and 7

Clearing the Temporary Cache in *Internet Explorer 6*

Manually clearing your Internet Explorer 6 browser's cache:

1. On the Internet Explorer 6 **Tools** menu, click **Internet Options**
2. The Internet Options box should open to the **General** tab
3. On the **General** tab, in the **Temporary Internet Files** section, click the **Delete Files** button. (This will delete all the files that are currently stored in your cache)

The Delete Files button

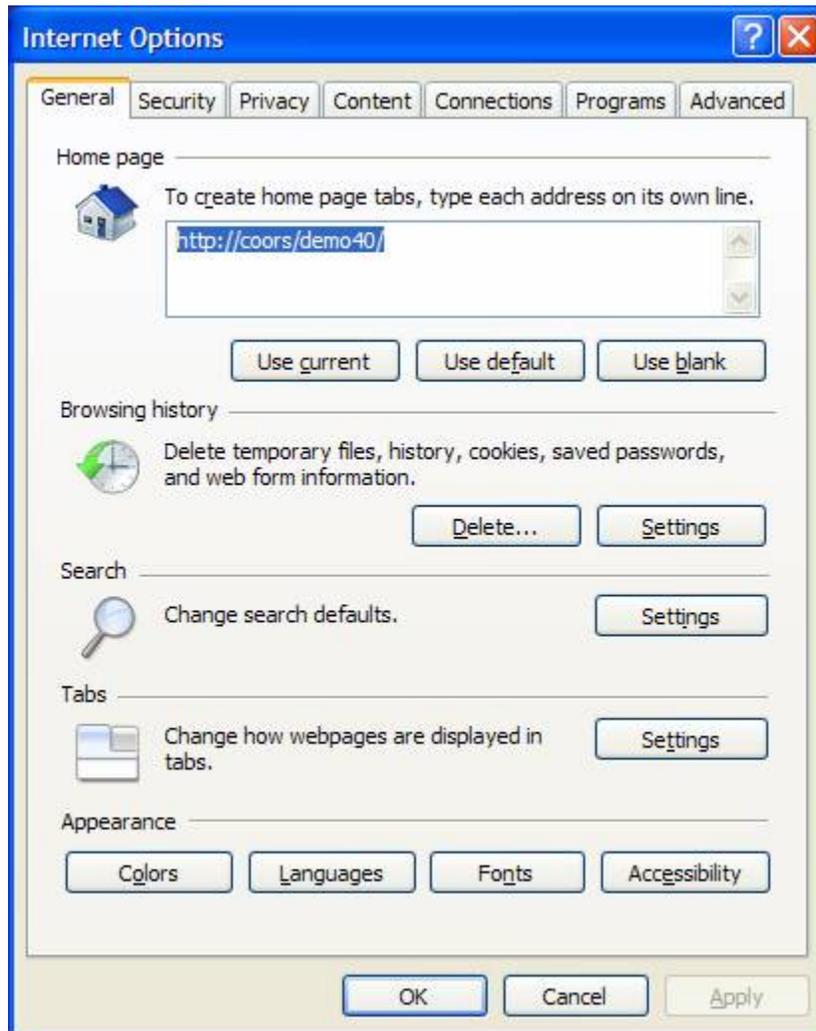

4. Click **OK**, and then click **OK** again.

Note: This option does not delete cookies, but it will clear your cache of other files when you close your browser.

Clearing the Temporary Cache in *Internet Explorer 7*

Manually clearing your Internet Explorer 7 browser's cache:

1. Select **Tools Menu** and then select **Internet Options** to get the below window.

2. Select the **Delete** Button to get the below window.

3. Select the **Delete files** button to clear cache.
